By [Cisco Cheng](#)

**Company:**

[Hewlett-Packard Co.](#), [www.hp.com](http://www.hp.com)

**Price:**

\$1,899 direct

**Spec Data:**

1.6-GHz [Pentium M](#); 512MB of RAM; 60GB hard drive; 14.1-inch XGA LCD; DVD/CD-RW drive; ATI Mobility Radeon 9600; SD slot; USB 2.0 (2), S-video out, 1 Type III or 2 Type II PC Card slots, infrared, Gigabit Ethernet; 802.11a/b/g; [Microsoft Windows XP Professional](#) Edition.

**Pros:**

Great machine for running [business applications](#); offers optimum productivity thanks to more than 6 hours of battery life; 802.11a/b/g; excellent graphics solution

**Cons:**

A tad bulky

**Bottom Line:**

The [HP](#) Compaq nc6000 did quite well on our benchmark and battery tests, but it could stand to be a bit lighter.

**Review**

If you're looking for a thin and light workhorse, the [HP Compaq](#) Business Notebook nc6000 should be on your list. Though not very stylish, and slightly bulky at 6.6 pounds (including the AC adapter), this business-class notebook performs very well and gives... [click here for full review](#)
